

Town of Lakeville

Highway Department

6 Montgomery Street
Lakeville, Massachusetts 02347
Telephone- (508) 947-9521
Fax- (508)-946-8820

CONSTRUCTION NOTICE

Please be advised that the Lakeville Highway Department will be performing roadway construction work on or near your street this construction season.

Roadway work is expected to begin in the area of Southworth Street (from Leonard Street to North Precinct Street), North Precinct Street or Captain's Way on or around September 12, 2017. Times of construction are anticipated to take place Monday thru Friday, from 7am and 5pm, however work may be required to take place outside of this time. It is anticipated that the work will take approximately 3-6 weeks pending contractor schedules.

Work will start with cracksealing of existing cracks in the roadway. A separate contractor will then pave a 1 ½" pavement overlay. Once completed, a contractor will pave a ¾" micropave surface course over all of the previously paved areas.

Police details will be on-site daily to help mitigate traffic flows. We encourage residents to avoid the construction area and utilize other routes, if possible. Roadways will be open for traffic each day but minor roadway shutdowns may be necessary.

****It is EXTREMELY IMPORTANT that residents or business owners locate existing sprinkler heads that are within 10' of the roadway edge. Please place a flag at each head. Many times sprinkler heads are located within the town right of way and are broken due to construction operations. Sprinkler heads/systems will not be replaced by the Town of Lakeville if they are broken in the town right of way so we ask that the residents take due diligence in helping us assure a smooth construction project.****

Residents can look for construction updates on social media at
