Discuss recent BOH Agent's pending items - Agent Cullen said there were still no cases of EEE. There have been 28 positive samples of mosquitoes. That hasn't really increased a lot over the past two weeks. Because of the cold, getting into the 40's, and 30's in the next couple of days, it has tamped down the mosquitoes. It is still out there until we get the first hard frost. For Covid, those numbers have leveled off some too. There's still a lot out there, but it's not increasing the way it was. The Board of Health does have tests available. Residents can call the office and request test kits and they can be left outside for pick up if they feel they may be positive. Residents looking for

vaccines are directed to the Board of Health website for locations and appointments. Member Poillucci noted that Walgreens currently has vaccines available by appointment.

Adjournment - (6:21pm)

Upon a motion made by Member Poillucci, seconded by Member Maxim, it was:

Voted: to adjourn.
