Discussion regarding Loon Pond Lodge Licensing

Chairman Poillucci briefly discussed the licensing and stated that the Board of Health is waiting on the Allergen Awareness and the Anti Choking Certifications. He said there were some questions as to why the senior center wasn't licensed. He said they should probably be, but that discussion should be tabled for another time because it wasn't on the agenda. He said if the certifications aren't submitted by the next meeting, something will have to be done. He said that it amazes him how much effort is being spent on trying to find reasons why not to get licensed. He said every other food establishment in town is licensed from Savas to Dunkin's to golf courses and schools. He feels if they don't take this seriously, they will have to be shut down. He said if this was any other restaurant, the Board of Health would have shut them down. He said the board has been trying not to do that, but it has been over two years. He said he feels very disrespected that this hasn't yet been resolved. Member Flynn brought up other

alternatives, but Chairman Poillucci said this is the option the Park Dept chose, to have an individual from the Bartending Service as the PIC (Person in Charge). He said if the Park Dept wants to go with option two which is lock up the kitchen and have each caterer apply for one day event licenses, it's up to them.

VOTED: To table discussion to next meeting. Unanimous vote in favor.

Upon motion made by Member Flynn and seconded by Member Maxim, the Board:

VOTED: To adjourn the meeting at 7:10 p.m. Unanimous vote in favor.
