Reviewed status of OS Plan assignments. For Section 7, Joan will use summary of new survey results with some ideas from 2001 Section 7.

We need responses from Historical Commission as to whether historical district is still an issue to include in the plan. We also need input from Conservation Commission.

We need Jaime's input on recommended recreational needs.

Discussed if we want to hand out something at Town Meeting June 15 about draft being on line. We will meet again on May 14 to review material and to discuss Action section.

Linda told Committee that we may not have access to SRPDD maps and may have to use our grant funds for map creation rather than printing.

Town Annual Report has been done. We do not have a report included.

There will be a meeting May 12, 7-9 pm at the Library about the Taunton River Watershed Study. Lakeville may be selected as a participant.
