

Town of Lakeville

Department of Public Works

346 Bedford Street
Lakeville, Massachusetts 02347
(508) 947-9521

CONSTRUCTION NOTICE

Please be advised that the Lakeville Department of Public Works will be performing major roadway construction work on or near your street this construction season.

Roadway work is expected to begin on Pickens Street, depending on weather conditions, on Monday, May 22, 2023, and continue through Tuesday, May 23, 2023. Times of construction are anticipated to take place Monday thru Saturday, from, 7am and 5pm, however work may be required to take place outside of this time.

Work will consist of contractors using the Mill and Overlay process on the existing roadway. Most existing asphalt driveway aprons will be maintained, however driveways with other materials (i.e. pavers, brick, stone, etc.), asphalt will be removed to the existing material. The top course of pavement will be laid **Tuesday, May 30th and Wednesday, May 31st**, weather permitting.

Police details will be on-site daily to help mitigate traffic flows. We encourage residents to avoid the construction area and utilize other routes. Roadways will be open for traffic at the end of each day but shutdowns will be necessary on the day paving will be done (**tentatively May 30th & May 31st**). Please plan accordingly, detour routes will be in place during this work.

****It is EXTREMELY IMPORTANT that residents locate existing sprinkler heads that are within 10' of the roadway edge. Please place a flag at each head. Many times sprinkler heads are located within the town right of way and are broken due to construction operations. Sprinkler heads/systems will not be replaced by the Town of Lakeville if they are broken in the town right of way so we ask that the residents take due diligence in helping us assure a smooth construction project.****

Residents can look for construction updates on the town website:
